2010.12 – 2011.11 | **Web Developer** | WebMD | Atlanta, GA

Skills Used: HTML5, CSS3, jQuery, Documentum, Subversion, PIE.js, Photoshop

- Worked within a team of 10 developers to build a custom website for Sanford Health named the "FIT Initiative". The site had a budget of 850k for contracted developers/designers. The site has been featured on the "Today Show" and the "CBS Early Show". Within three months and after a soft launch, the "FIT" website had

close to one million page views.

- Developed the entire “Juniors” segment of the website: fit.webmd.com/jr.
- Worked in a team environment using the AGILE/Scrum development process.
- Built all HTML and CSS page templates, loaded HTML templates into a proprietary CMS, “PageBuilder”, loaded assets into Documentum, wrote code documentation.
- Collaborated with the lead javaScript developer to seamlessly wire the javaScript to the HTML.
- Sliced and optimized all images and sprites from 50+ .psd files. Balancing file size and image quality.
- Met deadline on time and on spec.

Project URL: fit.webmd.com/jr

11.2010 – 12.2010 | **Web Developer** | Heystac | Marietta, GA

Skills Used: XHTML, CSS, PHP, MySQL, jQuery, Photoshop

- Built custom WordPress sites for small to midsize companies.
 - Created custom WordPress templates with PHP, XHTML, and CSS to deliver a WordPress powered CMS wrapped in a custom web design.
 - Built WP sites on a local development server, and upon completion transferred the WordPress theme and database to client server.
 - Coded several custom image sliders, and animated modules with jQuery.
 - Configured and installed WordPress plugins, and WUFOO contact forms.
-
